

# I'm in Control

AlunaGeorge

I'm in control

I like crashing waves  
But I want to see them at first light  
After a long night  
And see the sky take shape  
But I want to see the stars burn  
After I've had my turn

And ooh, ooh  
You're working so hard  
You played your card  
So what's the payoff?  
And ooh, ooh  
Big talk is cheap  
You gotta go deeper than deep  
To get me off

If you're picking up my call  
Come and tell your boss you know that I'm in control  
I'm in control  
Don't you know I want it all?  
Put your hands against the wall  
I'm in control, I'm in control  
I'm in control

She tell me she in control of me love  
Gyal get fucked up when me turn on up  
Boy, now she guh start whine up  
Love how she smile when we run, tied up  
Baby full o' action like Twilight  
Ah, yuh not dead like nine night gyal  
Bubble like champagne or Sprite, gyal  
All night, me a give ya love

And ooh, ooh  
You're working so hard  
You played your card  
So what's the payoff?  
And ooh, ooh  
Big talk is cheap  
You gotta go deeper than deep  
To get me off

If you're picking up my call  
Come and tell your boss you know that I'm in control  
I'm in control  
Don't you know I want it all?  
Put your hands against the wall  
I'm in control, I'm in control  
I'm in control  
(All night, me a give you love  
Control of me love)  
I'm in control

Hey gal  
Make sure yuh in control of the boss

Cause tonight me a take off your shorts  
And me feel up the fat pum pum inna yuh drawers  
Whole night, me a watch ya inna the dance  
Oh God, me a pray for your legs like a fast  
Gyal, yuh no favor, nuh Halloween mask  
See ya in control, but me a the real boss, gyal  
(I'm in control)

If you're picking up my call  
Come and tell your boss you know that  
(Cause she in control of me love)  
I'm in control  
Don't you know I want it all?  
Put your hands against the wall  
(Cause she in control of me love)  
I'm in control
