

# Jealous

AlunaGeorge

Don't act like you're jealous when you're not  
Cause I'm caught between  
Nor you could us and I can't let go, you see  
It's clear that I'm just your distraction  
I make my bed but  
Don't act like you're jealous when you're not

We had a breakdown  
You just can't help yourself  
We had an understanding  
Now look at us  
It was all good  
Until your lies came out  
Oh, don't act like you're jealous cause you're not  
I'm just your distraction  
Don't act like you're jealous  
I'm just your distraction  
Don't act like you're jealous  
I'm just your distraction

Don't act like you're into me when you're not  
Cause I guarantee  
I'ma show you how I feel  
My stage rolled up, no reverie  
It's clear that I'm just your distraction  
I make my bed but  
Don't act like you're into me when you're not

We had a breakdown  
You just can't help yourself  
We had an understanding  
Now look at us  
It was all good  
Until your lies came out  
No, don't act like you're jealous cause you're not

I'm just your distraction  
Don't act like you're jealous  
I'm just your distraction  
Don't act like you're jealous  
I'm just your distraction

No more, no more  
Don't wanna push me 'til my heart is torn apart  
No more, no more  
Believe me this is something that you wanna start

I'm just your distraction  
Don't act like you're jealous  
I'm just your distraction  
Don't act like you're jealous  
I'm just your distraction  
Don't act like you're jealous  
I'm just your distraction  
Don't act like you're jealous  
I'm just your distraction
