AlunaGeorge

Is this dead, or is it alive?  
Resuscitated too many times  
I circle way too many sites  
Must be a gift from a future crime

Supernatural, Supernatural, Supernatural  
Light this up, better save our money  
All hands up in a big finale

Is this dream state or awake?  
Create the science that we make  
The perfect innovation  
So close to real, we can't tell it's fake

Supernatural, Supernatural, Supernatural  
Light this up, better save our money  
All hands up in a big finale

Like our interplanetary  
Boy, your touch is haunting to me  
It's so extraordinary when you're simply holding me  
I go interplanetary  
Boy, your touch is haunting me  
It's so extraordinary when you hold me

Like our interplanetary  
Boy, your touch is haunting to me  
It's so extraordinary when you're simply holding me  
I go interplanetary  
Boy, your touch is haunting me  
It's so extraordinary when you hold me
