(Gotta loosen up, gotta loosen up!)

Let's get back, together again - let's get back, together again It's been a long time, since I went away - but now is the time Let's get back, together again - Let's get back....together again!

Get back, get back - Get back, get back - Get back, get back

Let's get back, together again - let's get back, together again I want a little freedom, but you can see - that you were the freedom

Let's get back, together again - Let's get back, together again Get back, get back - Get back, get back

Let's get back, together again - let's get back, together again I want a little freedom, but you can see - that you was the freedom

Let's get back, together again - Let's get back, together again Get back, get back - Get back, get back

Let's Get Back!
