

Belong Here

Aly & AJ

Everybody's got one, name your problem
What's it gonna be today?
And if you don't got one, you're not human
Things will never change
See I've got problems, but i love them
Cause' they can go away
If they didn't happen for a good reason i wouldn't be here today

Get up, get in, or get out (3x)

Move to the left, move to the right
If you stand still, you'll be here all night
Move to the left, move to the right
If you stand still, you'll be here all night
Hey!

Everybody's got some, name your options
What ya gonna do today?
You can bitch and moan about it,
But thing will never change
See I've got options and i choose them
So live will go my way
See if it didn't happen for a good reason,
I wouldn't be here today

Move to the left, move to the right
If you stand still, you'll be here all night
Move to the left, move to the right
If you stand still, you'll be here all night
Hey!

Get up, get in, or get out (3x)

Move to the left, move to the right
If you stand still, you'll be here all night
Move to the left, move to the right
If you stand still, you'll be here all night
Hey!

Just because you are here,
Doesn't mean you belong
Doesn't mean you belong here
Just because you are here,
Doesn't mean you belong
Doesn't mean you belong
