

Heart

Aly & AJ

There's a place in my heart
And it beats for you only
There's a cage 'round my heart
And you have the key to it
So why don't you use it?

I've told you a thousand times
I've showed you a hundred ways

Why can't we start from the start of everything?
Like loving me?
When did you get so confused 'bout everything?
Like loving me?

Aah, aah
Aah, aah

There's a flame in my heart
And it burns for you only
There's a sound in my heart
And it rings for you only
So why don't you hear it?

I've told you a thousand times
I've showed you a hundred ways

Why can't we start from the start of everything?
Like loving me?
When did you get so confused 'bout everything?
Like loving me?

Take me away
Take me away
Take me away
Take me away
Away

Why can't we start from the start of everything?
Like loving me?
It's okay if you're confused 'bout everything
But loving me

A hundred ways, a thousand times
A million days
