

Never Fading

Aly & AJ

Turn it up, turn it up, turn it up. I can't take it
I've had enough, had enough, had enough I've been patient
I've got a cure for my unhappy ways
Searched high and low, it was right in my face

I found my motivation under all this frustration
I got everything that I've been looking for
Yeah, I'm done playing underrated
I'm doing well, but I can't take it
I'm not fading, never fading

Let it out, let it out, let it out. Gotta say it
Braking down, breaking down, breaking down but I'll make it
I've got a cure for my unhappy ways
Searched high and low, it was right in my face

I found my motivation under all this frustration
I got everything that I've been looking for
Yeah, I'm done playing underrated
I'm doing well, but I can't take it
I'm not fading, never fading

I refuse to let my self down
I won't give in.
Want attention, affection, good friends, a pay check
Honesty, respect.
Can I hear an amen?!?!

I found my motivation under all this frustration
I got everything that I've been looking for
I got everything that I've been looking for
I'm not fading, never fading
