

## The Edge

Aly & AJ

Don't wanna get what I got, wanna be what I'm not  
I wanna fight for my right just to get up and go  
No sleeping, waiting, counting time  
Gonna go too far, gonna break the line  
I know you heard what I said 'cause I've said it before

Running to the edge and we ain't gonna blend in  
Hell yeah, invade a new planet  
You can sit down but we ain't gonna stand it  
Rebel souls, don't take what you're handed  
Speak up if you wanna come with  
What's it gonna be now? Make up your mind  
We're going off the edge or not?

Don't wanna break every rule, I wanna shake the floor  
How many people does it take to break the boards?  
I'm wired, you're tired, take off with me  
I'll make you feel like you do in your dreams  
I know you heard what I said 'cause I've said it before

Running to the edge and we ain't gonna blend in  
Hell yeah, invade a new planet  
You can sit down but we ain't gonna stand it  
Rebel souls, don't take what you're handed  
Speak up if you wanna come with  
What's it gonna be now? Make up your mind  
We're going off the edge or not?

We are all our heroes, cast our shadows in the day  
We are all our heroes, we will find a way

We all know better  
Yeah, we all know better

Running to the edge and we ain't gonna blend in  
Hell yeah, invade a new planet  
You can sit down but we ain't gonna stand it  
Rebel souls, don't take what you're handed  
Speak up if you wanna come with  
What's it gonna be now? Make up your mind  
We're going off the edge or not?

Running to the edge and we ain't gonna blend in  
Hell yeah, invade a new planet  
You can sit down but we ain't gonna stand it  
Rebel souls, don't take what you're handed  
Speak up if you wanna come with  
What's it gonna be now? Make up your mind  
We're going off the edge or not?
