

# Hurricane

Alyssa Reid

Lights out, I know where we can go  
So right and yea you're out of control  
You cut me off but I wanna go all night long  
I'm out my mind, it's a wonderful mess  
Bright lights and I just gotta confess  
Black eyes, you get me every time

Ain't got no ring on my finger, a ring on the phone  
I'm knocking at your door but there's no one home  
So I take a deep breath and I blow it down  
Baby tell me when you're ready, when you go to town  
A little midnight business, take a trip  
If you get a little cray start breaking shit  
So let me know if you're into it  
Oh we can even look like we found our hit

Want you like a hurricane  
Shake me like an earthquake  
In a lonely ever after  
This beautiful disaster

Your smile, it shattered the ground  
I fly whenever you are around  
You're mine  
What goes when you don't come down?

Ain't got no ring on my finger, a ring on the phone  
I'm knocking at your door but there's no one home  
So I take a deep breath and I blow it down  
Baby tell me when you're ready, when you go to town  
A little midnight business, take a trip  
If you get a little cray start breaking shit  
So let me know if you're into it  
Oh we can even look like we found our hit

Want you like a hurricane  
Shake me like an earthquake  
In a lonely ever after  
This beautiful disaster

Want you like a hurricane  
Shake me like an earthquake  
In a lonely ever after  
This beautiful disaster

I wanna stay but I'm torn  
You've got me good, boy I'm yours  
You know that we could be the perfect storm

Want you like a hurricane  
Shake me like an earthquake  
In a lonely ever after  
This beautiful disaster
