

# Last Chance

Alyssa Reid

And I pray  
The storm's gonna fade  
Eventually

And I know  
I know I should've stayed  
But I was weak

Even if the walls come down don't ask  
Even if we're left out in the air  
As long as you are standing next to me  
(Don't leave me alone)

Last chance, the lights are all turned low  
Last dance on the radio  
Too fast, I feel like you're alone  
All alone

Turn back before it gets too late  
Last chance, a simple twist of fate  
Too fast, I feel like you're alone  
All alone

Will you be there?  
If I begin to tell  
At the scenes

Cause I know  
I know I need you here  
Next to me

Even if the walls come down don't ask  
Even if we're left out in the air  
As long as you are standing next to me  
(Don't leave me alone)

Last chance, the lights are all turned low  
Last dance on the radio  
Too fast, I feel like I'm alone  
All alone

Turn back before it gets too late  
Last chance, a simple twist of fate  
Too fast, you feel like you're alone  
All alone

If I ever just cross your mind  
Would you say you love me?  
I don't know how to fall  
If I ever just change your mind  
Turn around and when you cross them by  
You and I

The lights are all turned low  
On the radio  
Too fast, I feel like I'm alone  
All alone

Turn back before it gets too late  
Last chance, a simple twist of fate  
Too fast, you feel like you're alone  
All alone

All alone  
All alone
