

# You Go Do You

Alyssa Reid

I remember when we first got together  
Everything was good with us  
Everything was new to us  
Now all we do is fight and fuss

And I've been thinking lately  
I'm getting kinda tired  
If you don't care  
Why the hell I'm still here is beyond me

You can say what you want  
But I'll tell you straight up  
It don't mean a thing  
Don't want to wait till it falls apart  
Don't want to wait till it breaks my heart, Baby  
You used to hold me like you'd never let me go  
There was a time I thought I'd never be alone  
So done with thinking  
About the way you used to be  
So you go do you  
And I'm a do me

We've been running really fast out of love  
And you know that I won't stay  
Things just stayed the same  
I'm getting tired of playing games

And I've been thinking maybe  
The way that things are going  
We'd be better off on our own  
And you know it

You can say what you want  
But I'll tell you straight up  
It don't mean a thing  
Don't want to wait till it falls apart  
Don't want to wait till it breaks my heart, Baby  
You used to hold me like you'd never let me go

There was a time I thought I'd never be alone  
So done with thinking  
About the way you used to be  
So you go do you  
And I'm a do me

You go and do your thing  
And I'll be alright  
When you start missing me  
Remember it was you who drifted off  
And hurt me see

Don't want to wait till it falls apart  
Don't want to wait till it breaks my heart, Baby  
You used to hold me like you'd never let me go  
There was a time I thought I'd never be alone  
So done with thinking  
About the way you used to be

So you go do you,  
Hey  
So you go do you  
And I'm a do me
