

# Stepping Stone

AM

Take on what you will  
But I still  
Believe what I do  
And I was your stepping stone  
And I knew

So take your hand in mine  
And all you will find  
You'll find what you need  
And I was your stepping stone  
And I couldn't leave

Oh now my head keeps spinning  
Oh now I'm right back in it  
Oh now I was your stand in  
Oh now I guess this will pass in time

Take things as they come  
But you know that is so hard  
Yeah you know what I mean  
To take your piece of ground  
And let what will be just be

Oh now my head keeps spinning  
Oh now I'm right back in it  
Oh now I was your stand in  
Oh now I guess this will pass in time

I was your stepping stone  
I guess this will pass in time  
I was your stepping stone  
I guess this will pass in time  
I was your stepping stone  
I guess this will pass in time
