

Beautiful Goodbye

Amanda Marshall

Fed up with my destiny
And this place of no re - turn
Think I'll take an - other day
And slowly watch it burn
It doesn't really matter how the time goes by
'Cause I still remember you and I
And that beautiful goodbye

We staggered through those empty streets
Laughing arm in arm
The night had made a mess of me
Your con - fession kept me warm
And I don't really miss you, I just need to know
Cm7 Bb/7 Cm7 Ebmaj7 F(add9)
Do you ever think of you and I
And that beautiful good - bye

When I see you now
I wonder how
I could've watched you walk a - way

If I let you down
Please forgive me now
For that beautiful good - bye

In these days of no regrets
I'll keep mine to my - self
And all the things we never said
I can say for someone else
'Cause nothing lasts for - ever, but we always try

And I just can't help but won - der why
We let it pass us by
When I see you now
I wonder how
I could've watched you walk a - way
If I let you down
Please forgive me now
For that beautiful good - bye

Baby what can I do?
Ought to get through to you
And sometimes I cry
It's a fools lulla - by
Sometimes I cry
It's just a fools lullaby
Oh, I
I'm dying inside
Yeah
