

# Beautiful Goodbye

Amanda Marshall

Fed up with my destiny  
And this place of no re - turn  
Think I'll take an - other day  
And slowly watch it burn  
It doesn't really matter how the time goes by  
'Cause I still remember you and I  
And that beautiful goodbye

We staggered through those empty streets  
Laughing arm in arm  
The night had made a mess of me  
Your con - fession kept me warm  
And I don't really miss you, I just need to know  
Cm7 Bb/7 Cm7 Ebmaj7 F(add9)  
Do you ever think of you and I  
And that beautiful good - bye

When I see you now  
I wonder how  
I could've watched you walk a - way

If I let you down  
Please forgive me now  
For that beautiful good - bye

In these days of no regrets  
I'll keep mine to my - self  
And all the things we never said  
I can say for someone else  
'Cause nothing lasts for - ever, but we always try

And I just can't help but won - der why  
We let it pass us by  
When I see you now  
I wonder how  
I could've watched you walk a - way  
If I let you down  
Please forgive me now  
For that beautiful good - bye

Baby what can I do?  
Ought to get through to you  
And sometimes I cry  
It's a fools lulla - by  
Sometimes I cry  
It's just a fools lullaby  
Oh, I  
I'm dying inside  
Yeah
