

# Love Lift Me

Amanda Marshall

Somebody told me  
Once in a lifetime  
Destiny finds you and blows you away  
Spins you in circles  
Pulls you in pieces  
Bleeds you like Jesus  
And goes on it's way  
But it's oh so simple sometimes  
Just to let your heart open wide  
If you wanna get Heaven  
Then you gotta take the ride

Love lift me  
Wherever you are  
Convince me  
I'm safe in your arms  
Love lift me  
Make sense of it all  
Teach me to fly  
And don't let me fall

Somebody told me  
Love makes you stupid  
Makes you go crazy  
Makes you go blind  
Comes uninvited  
And leaves when it wants to  
Calls you at midnight and ties up your line  
But it's oh so sweet when it's right  
And you swear you won't but you might  
Gotta fumble in the dark if you wanna see the light

Love lift me  
Wherever you are  
Convince me  
I'm safe in your arms  
Love lift me  
Make sense of it all  
Teach me to fly  
And don't let me fall

And when it's all said and done  
It's just the same for everyone  
Your busy making your plans  
Love's like a bird baby  
Flying out of your hands

And it's oh so hard to explain (we don't know nothin')  
When your heart gets hold of your brain (but still we try)  
Better batten down the hatches  
Here we go again

Love lift me, wherever you are  
Convince me, I'm safe in your arms  
Love lift me, I'm waiting on you  
Cause nothing can lift me the way that you do  
Love lift me, love lift me

Love lift me (only love can take me higher)  
I wanna fly...
