Reachin' For A Star

Amanda Stott

I've got a friend
Who says he's been
Everywhere he wanted to go
He read a book or two
And he thought he knew
Everything he needed to know

You cant convince his commen sense
Whatever will be will be
He rolls the dice
And lives his life
With the simple philosophy

If you're gonna dream
Dream big
If your gonna dance
Dance slow
If your gonna sing
Sng loud
If you wanna be heard
On tghe backboards
If your ganna love
Stay true
If your gonna go
Go far

Cause time is a curse
And there's nothin' wose
Than never reachin for

Some will arive and some will get close
Some will surely fall by thier way
But we're gonna find a place in the sun
Hangin' around in the shade

Well im not a teacher
and i'm not precacher
a messenger
Is all i am
I don't know but I'm passin it on
I'm leavin it in your hands

Chourse

Chourse

If your ganna love
Stay true
If your gonna go
Go far

Repeat chourse and fade
