

# Dynamite

Amaranthe

Face it  
I told you I'm on fire  
But I am energized  
And won't apologize  
I'm digitalized, I'm hypnotized

No excuse  
Break the bonds, a gasp of air  
My will is strong  
Get out of here my mind is futile  
I'm just a statuette  
Without a timer set  
While I apply my dynamite

Come on believe me  
You can't deny  
From the blaze in my eyes  
I am hypnotized and  
I can achieve it  
I will arise  
Like the fire in the sky  
I am dynamite

Face me, I belong in the fire  
And I am synchronized  
I have been optimized  
I'm crystallized  
I'm liquefied yea

Light the fuse, see the sign  
Unbalanced heart  
I'm in my prime  
Get out of here while there is still time  
I'm reaching overload  
I'm going right on top  
While you abide my dynamite

Tell me command me  
I'd walk through fire and stone if you want me  
and no one can stop it  
If you want it  
I can achieve it if only you ask me  
you better believe
