

## Yellow Moon

Amason

No my heart is turning baby  
To know how to face the wave  
But damnit love  
don't you strangle me  
Trying to fight the flickering  
the shiver in the dream  
You always want to hide  
when you scared of leaving me  
Don't make your love define me  
When you find everything is always undermining me  
you feel  
You wanna hold me  
You feel  
You wanna hold me  
Ghosts, she rules my grieving honey  
But I know, we're changing  
Damn it love  
No I'm not better than that  
You're trying to find a new love  
Want to see it come again  
You're Always out of love  
Always undeceivable  
turning up to mock the flowers  
Tryin to have my heart  
To keep it inconceivable  
And turn in like a lost survivor  
You want to feel  
New love I can't give  
Receive  
Unused belief  
Dreamt I saw you coming at me  
my heart is In your black jacket  
You're leaving all your love  
I know you're gone to be with her  
But I'll see you outside Seattle  
And I keep  
I keep breathing your air  
Hear you sing  
"remember here"  
There goes the yellow moon  
And I keep fading here
