

Best Of Your Life

Lawrence, Amber

Won't even get off the lounge to change the channel
You're so sad you say you seen it all
Come on, don't hide in the shadows
There's always a light you can follow
What if the best of your life is the rest of your life?

You're so in your moment that you can't even see the sunshine
Do you even care if you sleep right through
Come on, don't waste while you wallow
There's always a light you can follow
What if the best of your life is the rest of your life?

I wish you'd get up
There's movement away then coming back home
Taking a leap with nothing tied on
Dying your hair then cutting it off
There's falling in love
For the best of your life

You seem to think that a love should be treated together
Handed to you as you hide beneath your fears
Come on, don't cry in your pillow
There's always a light you can follow
What if the best of your life is the rest of your life?

I wish you'd get up
There's movement away then coming back home
Taking a leap with nothing tied on
Dying your hair then cutting it off
There's falling in love
For the best of your life

Surely the best of your life is the rest of your life

I wish you'd get up
There's movement away then coming back home
Taking a leap with nothing tied on
Dying your hair then cutting it off
There's falling in love
There's movement away then never coming home
Taking a leap or just holding on
Dying your hair or growing it long
There's falling in love
Yeah, for the best of your life
