

# Don't Do Lonely Well

Lawrence, Amber

Hello it's me again  
I thought I'd call again in case you missed the other seven messages I left  
It's not like I'm checking up on you  
It's just that stupid thing I do  
You must admit it's what I do best

I know I seem abit irrartional  
When your on the other side of the world

Feels like I'm missing out on all the fun your having  
Wishing I was there, god damn it  
I just need to hear your voice again  
You know theses feelings make me crazy  
But that's the way I love you baby  
Sorry I've been putting you through hell  
But I don't do lonely well, no

The sun is coming up again  
Another day around the bend I'll hide my phone until you call  
My patience is wearing kinda thin  
I'll make up stories where you been  
Two lines cross no call at all

I know that I'm not making sense  
Although what did you expect?

Feels like I'm missing out on all the fun your having  
Wishing I was there, god damn it  
I just need to hear your voice again  
You know theses feelings make me crazy  
But that's the way I love you baby  
Sorry I've been putting you through hell  
But I don't do lonely well, oh no no

Feels like I'm missing out on all the fun your having  
Wishing I was there, god damn it  
I just need to hear your voice again  
You know theses feelings make me crazy  
But that's the way I love you baby  
Sorry I've been putting you through hell  
Feels like I'm missing out on all the fun your having  
Wishing I was there, god damn it  
I just need to hear your voice again  
You know theses feelings make me crazy  
But that's the way I love you baby  
Sorry I've been putting you through hell

But even though you love me you can tell  
I don't do lonely well  
I don't do lonely well  
I don't do lonely well
