

Just Us

Lawrence, Amber

Right about now the rent is due
Waiting for the money to come through
Sip a seven dollar wine
Plastic chairs but never mind
We've got us

We gotta stay home most nights
The money don't stretch for fancy sights
Put our fibre music on
Say a little and sing along
Cos' we've got us

And we will grow together
Maybe save enough, to buy a little house
We won't change with the weather
Cos' it's enough, to just have us
To just have us

Tempted to max the credit card
And tempted to trade the rusty car
But the way we get around
Means we here another sound
The sound of us

And we will grow together
Maybe save enough, to buy a little house
We won't change with the weather
Cos' it's enough, to just have us

To just have us
And a million dollar mansion
To just have us
And a fifty dollar caravan
And it's all just stuff
And in an instant it could vanish
All we have is us

So we will grow together
Maybe save enough, to buy a little house
We won't change with the weather
Cos' it's enough, to just have us
Whoa yeah, and we will grow together
Maybe save enough, to buy a little house
We won't change with the weather
Cos' it's enough, to just have us
Yeah it's enough, to just have us
To just have us
To just have us
