

Love You Like No Other

Lawrence, Amber

There's a time when she tried to do it all on her own
Better off being free then stuck like stone
So many nights, travelling light
Never felt like home
She can count on one hand the man she loved
And she can count a thousand more who loved her too
Right now she counts the holidays she's gonna spend with you

She loves you like no other ever
She loves you like no other ever
Nowhere she'd rather be wasting and tasting this life when it's
true
She's loving you, yeah

So now she slides and travels down that slippery slope
But finally her hair begins to touch her toes
That's how it feels when it feels like melted snow

She loves you like no other ever
She loves you like no other ever
Nowhere she'd rather be wasting and tasting this life when it's
true
She's loving you

What ever lasts and never ends
And promise you she's not pretending
And this is kind of revealed love

She loves you like no other ever
She loves you like no other ever
Nowhere she'd rather be wasting and tasting this life when it's
true
She loves you like no other ever
She loves you like no other ever
Nowhere she'd rather be wasting and tasting this life when it's
true
She's loving you, yeah
