

Won't Let Our Love Die

Lawrence, Amber

It never felt this way before
You speak in love with all your words
And people envy us
Just spending more time in town
My heart just beats a lonely sound
Maybe give it up

Coz it's not right to walk away
I won't let you leave today

I'll let the sun go down
I'll let the fire burn out
I'll leave the car in drive til the tank runs dry
But I, won't let our love die

Loving me must come in waves
You were in love just yesterday
The wind blew it away
You like to taste the russian love
Forgetting that it soon rubs off
Work it out your way

Coz it's not right to leave tonight
I won't let you take that flight

I'll let the sun go down
I'll let the fire burn out
I'll leave the car in drive til the tank runs dry
But I, won't let our love die

Coz it's not right to walk away
I won't let you leave today

I'll let the sun go down
I'll let the fire burn out
I'll leave the car in drive til the tank runs dry
But I, I'll let the sun go down
I'll let the fire burn out
I'll leave the car in drive til the tank runs dry
But I, won't let our love die
