

Don't Let It Fall Through

Amber Pacific

I couldn't bare if my world today
Was the reason we let this fade
And the only thing left was tried not true
Our love I could not save

But I'm here and I'm not afraid
I can't keep you from all this pain
And now you're reading the notes on how to deal with me when I'm away

Here's your chance,
Don't let it fall through
Know that in your life is where I am
I'll be there to guide you
If you feel like you can't make it
Know you can

I can't even begin to think
As my heart, it begins to sink
And the desolate cycle circles through my mind I can't unweave

But I'm finding the only way
Is to face what I cannot say
And I hope in the end with time you'll see our love won't ever change

Here's your chance,
Don't let it fall through
Know that in your life is where I am
I'll be there to guide you
If you feel like you can't make it
Know you can

Here's your chance,
Don't let it fall through
Just know that in your life is where I am
I'll be there to guide you
I know that you can take it

Here's your chance,
Don't let it fall through
Just know that in your life is where I am
I'll be there to guide you
If you feel like you can't make it
Know you can
