

Gone So Young

Amber Pacific

I never dreamt it'd be this way
I lost any chance for me to say
To say that I miss you, say that I love you
Will someone please tell me I'm okay

I wasn't prepared for what's to come
A life made of memories gone so young
And now I'm regretting all I've done
But in your heart know that I'm with you all along

Wherever you go, I will be waiting
Whenever you call, I will be there
Whatever it takes, I'll make your darkest days so bright
I'm in your heart tonight

I never thought that this could go
And take me away from all I know
And leave me to think I'm on my own
But your love will take me, you were the one...

...Who sat through nights
You held me tight
And made sure I'm okay
And I thank you for the love you gave to me

Wherever you go, I will be waiting
Whenever you call, I will be there
Whatever it takes, I'll make your darkest days so bright
I'm in your heart tonight...

Tonight...

Wherever you go, I will be waiting
Whenever you call, I will be there
Whatever it takes, I'll make your darkest days so bright
Wherever you go, I will be waiting
Whenever you call, I will be there
Whatever it takes, I'll make your darkest days so bright
And if I should fall, I know your waiting
And if I should call, I know your there
If ever you cry just know
I'm in your heart tonight...
I'm in your heart tonight.
