

Next To Me

Amber Pacific

You can't undo what's been done
So we learn our lessons
A father's note to his son
Do you hear the message?
It's hard to think that there's a part of me
You'll never see but
when you're gone I'm so lost

And it's clear to me
That I should have been there for you
Endlessly
I can't shake these thoughts that I don't need
But I need you next to me

It never came to me
It never felt so wrong
And I need to take it in
Another wasted breath, another minute gone
And I can't believe that
I'll never get that chance to make it last
I'd take it back if, If it meant I'd see you

And it's clear to me
That I should have been there for you
Endlessly
I can't shake these thoughts that I don't need
I know you'll find me just be strong
Take each moment as it comes
And I'll meet you in the end

And it's clear to me
That I should have been there for you
Endlessly
I can't shake these thoughts that I don't need
I know you'll find me just be strong
Take each moment as it comes
And I'll meet you in the end

Oh, yes I'll meet you in the end
I'll meet you in the end

(I won't leave you, I won't leave you)
I'll meet you in the end
(I won't leave you, I won't leave you)
I'll meet you in the end

I won't leave you in the end
I won't leave you in the end
