

## Postcards

Amber Pacific

I'll quote clever line like hope  
I'll take the final words you wrote  
To make them feel like bliss  
As always as I'll take the praise  
I have a way with making things  
Scripted like a song that makes you sting

I need you here with me  
So here's our heart to heart  
On the back of postcards sent from California  
Remember when I said  
Just stay what you are  
I know you hate the feeling when I walk away  
When I'm without you I'm not the man that I know I can be  
Because your not here with me

You can break my heart open  
And ruin my epic ending  
Your hand like a noose around my neck  
But the next time you say  
'Promise me'  
I'll make  
One for myself to always stay what I am

I need you here with me  
So here's our heart to heart  
On the back of postcards sent from California  
When I'm without you I'm not the man that I know I can be  
Because your not here with me

I need you here with me  
So here's our heart to heart  
On the back of postcards sent from California  
When I'm without you I'm not the man that I know I can be  
Remember when I said  
Just stay what you are  
I know you hate the feeling when I walk away  
When I'm without you I'm not the man that I know I can be  
Because your not here with me
