

The Good Life

Amber Pacific

I found a new life with you here
A life that will burn bright through the years
I can tell in the way you look, the signals are so clear
I want a big house in the hills,
but I don't need that life to make me feel
Like I'm part of the crowd who turns their backs to what's real

Whoa, whoa yeah, it's a good day
I know you know, to me you're everything
Whoa, whoa yeah, it's a good day
And I feel my life is changing

I found a piece of what was left,
a mark that runs deep within this chest
I know in my heart what's best is here in front of me
I can just see us in the streets
Beneath all the stars just you and me
Together as one we'll stand, each hand and hand
You're all I ever needed

Whoa, whoa yeah, it's a good day
I know you know, to me you're everything
Whoa, whoa yeah, it's a good day
And I feel my life is changing, and I feel my life is changing
I can see my life is changing, and I feel my life is changing
