The Good Life

Amber Pacific

I found a new life with you here A life that will burn bright through the years I can tell in the way you look, the signals are so clear I want a big house in the hills, but I don't need that life to make me feel Like I'm part of the crowd who turns their backs to what's real

Whoa, whoa yeah, it's a good day I know you know, to me you're everything Whoa, whoa yeah, it's a good day And I feel my life is changing

I found a piece of what was left, a mark that runs deep within this chest I know in my heart what's best is here in front of me I can just see us in the streets Beneath all the stars just you and me Together as one we'll stand, each hand and hand You're all I ever needed

Whoa, whoa yeah, it's a good day I know you know, to me you're everything Whoa, whoa yeah, it's a good day And I feel my life is changing, and I feel my life is changing I can see my life is changing, and I feel my life is changing
