

We Can't Fake This

Amber Pacific

I can't fake the smiles you don't see
Listen as your heart will beat
It tells you just how much you meant to me

And time will pass as we go on
I won't come back
I swear it's done
Can't try to help you understand

I know it's hard but I am gone
I'm sorry
We let this pass and you moved on
I worry
That I have missed the only one
That made me
Feel like I feel but now you're gone
Now you're gone

I can't break this hold you have on me
It tears me up
It's hard to think
I loved you without ever loving me

And time will pass as we go on
I won't come back
I swear it's done
Can't try to help you understand

I know it's hard but I am gone
I'm sorry
We let this pass and you moved on
I worry
That I have missed the only one
That made me
Feel like I feel but now you're gone
Now you're gone

Now you're gone
Now you're gone

And time will pass as it go on
I won't come back
I swear it's done
Can't try to help you understand

I know it's hard but I am gone
I'm sorry
We let this pass and you moved on
I worry
That I have missed the only one
That made me
Feel like I feel but now you're gone
Now you're gone
Now you're gone
