I apologize,
it seems I barely knew you
and I'm surprised
seems my love knew strange through

Girl, you are free to be all you wanted to be And now, I can breathe and let these four walls dissolve around me

You make me shiver You make me shiver

00, 00, 00...

Goodbye troubles,
It's always the first to go
Goodbye love,
It seems that it's off to be alone

You make me shiver You make me shiver, Oh-oh

You make me shiver
