

Can You Feel The Love

Amber

Can you feel the love I'm dreaming of, oh boy
Come on and take on me
Can you feel the love, can't get enough, oh boy

In my dreams it seems you're the one for me
Come and take my hand to eternity
Can you feel the love I'm dreaming of, oh boy
Can you feel my love tonight
Can you feel my love tonight

On a moonlit summers night
Here in paradise with you by my side
We watch the ocean rolling in
Yes the time is right to let this love begin

I've been longing for so long
No this can't be wrong, 'cause it feels so strong
Now you came into my life
Giving me the love that I need to survive
