

# Don't Say Goodbye

Amber

Inside I'm dying  
All alone in my room  
Try to fight from the mood  
Outside I'm crying  
What is right or wrong  
Where do I belong  
I wonder where you are, I wonder what you do  
It's your face that I'm seeing  
It's fading

Chorus:

Don't, don't say goodbye  
Don't walk away  
Don't let this love be a lie baby  
Don't don't say goodbye  
Just walk away from all this pain inside  
Don't say goodbye

I look at the sky  
It's getting colder each day  
How can I make you stay  
Closing my eyes  
While the time wipes your trace  
I'm calling your name  
I wonder where you are, I wonder what you do  
It's your voice that I'm hearing  
It's fading

Don't, don't say goodbye  
Don't walk away  
Don't let this love be a lie  
Don't don't say goodbye  
Just walk away from all this pain inside  
(Can't say goodbye) to the feeling that I'm feeling  
(Can't say goodbye) to the dreams you're giving me  
(Can't say goodbye) to the love that we're sharing  
No I can get it won't let it go

chorus
