

**He**

**Amber**

If I'm unskilled he makes me hope again  
He can come for me as nobody else can  
He knows the words  
He can come for me  
He can see through me when nobody knows me  
Nobody knows me

Chorus:

He sees, he loves  
He feels, he heals  
He knows, he shields  
He loves me, he loves loves loves me  
He sees, he loves  
He feels, he heals  
He knows, he shields  
He loves me, he loves me yeah, oh

The taps dance still when he embraces me  
No question no claim he's love that wants me  
He knows the words  
He can come for me  
He can see through me when nobody knows me  
Nobody knows me

Chorus
