

# The Smile Of My Child

Amber

(La...)

"Your hair shines like gold" says my child  
"You are pretty old" says my child  
And I think to myself how I used to be  
There's another wrinkle that I see  
Then he takes my hand and smiles at me

Chorus:

The smile of my child makes me realize that I'm alive  
The smile of my child makes my life worth living  
The smile of my child is a reflection of my life  
And an endless source of love, an endless source of love and gi  
ving

"You are so nice" says my child  
"You are so wise" says my child  
And I think to myself how it's going to be  
I see so much bad news on TV  
Then he takes my hand and smiles at me

Chorus

You are so beautiful when you dance and smile  
And even though you are so small  
I want to be everything for you  
My beautiful child
