

## Can't Let A Woman

Ambrosia

(pack)

Where do you think you're goin'?  
Dressin' like some evening tramp?  
What do you think you're doin'?  
Well, you got them talkin' behind my back  
It must be something I can't relate  
It's enough to drive a man from his mind  
So get back home before it's too late  
How could you up and just walk out of my life?  
I can't let a woman like you get to my head  
I can't let a woman like you get to my head  
What do you think you're doin' ?  
Well I told you not to leave anymore  
Where do you think you're going?  
Come on, get your fingers off of that door  
It must be something I can't relate  
It's enough to drive a man from his mind  
So get back home before it's too late  
How could you up and just walk out of my life?  
I can't let a woman like you get to my head  
I can't let a woman like you get to my head  
I've waited all my life  
For someone like you  
Waited all my life  
Is there something that I could do...  
I can't let a woman like you get to my head  
I can't let a woman like you get to my head  
Goo, goo goo goo.
