

## How Can You Love Me

Ambrosia

Babe, it took a long, long time to get it out this way  
Now, that the hurtin's over all I've got to say  
(Is) that I know  
Sure as I am living  
It takes more than forgiving  
'Cause it ain't been easy  
I know you did your best to please me

How can you love me,  
After all the years we've tried  
After all the tears you've cried  
After our love has died

Babe, I've seen some pretty faces everywhere I go  
I say now  
Maybe I ain't the same person that you used to know  
But I know  
In my heart I'm livin'  
For the love you've given  
And the foolish thing about it  
Is that I thought I'd live without it

How can you love me  
When you know I've been with someone else  
And I ain't too happy with myself  
But I keep on comin' back around

Ooh, sometimes it feels like I'm gone forever  
(I'm gone forever)  
Ooh, it gets so hard to wait  
(It gets hard to wait)  
Ooh, we're far away and it ain't gettin' better  
Well, I know that somethin' is surely wrong  
When I feel this way, well I can't go on and on
