## Not As You Were

When you've had enough of trouble, Had it up to here, Your mind can't help but wandering To some place gonna get you clear

You've had enough of misery You've gotta find you somethin' new

And I'd be gone in a wink If I thought I could think Of some place gonna get me through

Tryin' to find some breathin' room, A little peace from your case of blues, It's hard to cut the ties that hold you, Get the lead out of your shoes

You've had enough of misery You've gotta find you some new clue

And I'd be gone in a wink If I thought I could think Of some place gonna get me through

Not as you were You really don't need that You tried it out It just didn't work Not as you were Really don't need that Not as you were, were...

Oh, if I had some relief Get me out of the rain and the cold Then, I'd be down on my knees Giving thanks for the peace All right

When you've had enough of trouble, Had it up to here, Your mind can't help but wandering To some place gonna get you clear Yeah, yeah, yeah

Not as you were You really don't need that You tried it out It just didn't work Not as you were Really don't need that Not as you were, were...

Not as you were Were Ambrosia
