

Take it from a well known man
You can count on the fine performances
And hear they saying
It's never twice the same
Baby

Come around the bend once more
And believe in the son's abilities
I know he's watching
And always listening
To me

The seeds come alive with the things they can grow and maybe ta
lent man
And we told you to believe in the things that you know
Baby trust that you can
Trust you can

Come across a life less bored
And I wonder if he knows anything
I feel like laughing
But I don't have to say
Nothing

Step in through a washer door
And come into a brave new scenery
And move like switches
on all the ares table charade

The seeds come to life and continue grow
and maybe talent man
And don't you believe in the things that you know
Baby trust that you can
Trust you can

Just, just go
