

Look Who's Laughing Now

Amelia Lily

They try to undo your energy
They try to rewrite this part of you?
They try but you left them stuttering
They try to suck out the life of you
Take your dream away, easy
But you left me speechless, yeah

Cause you're not gonna be the one to cry
Taking back the words and leave them dry
Tables about to turn for you this time.

Look who's laughing now
Look who's laughing now
Fake a smile whenever you're down
Fake a smile whenever you're down
Look who's laughing now
Gotta make the world believe it?
Fake a smile whenever you're down
Fake a smile whenever you're down
Look who's laughing

They try to fight
Didn't have the wings
They try to drive
Didn't have the wheels
They try but they couldn't hold on
They try to run but they couldn't hide
To burn your bridge to the other side
If you're hurt
Don't lay on the ground

Cause you're not gonna be the one to cry
Taking back the words and leave them dry
Tables about to turn for you this time.

Look who's laughing now
Look who's laughing now
Fake a smile whenever you're down
Fake a smile whenever you're down
Look who's laughing now
Gotta make the world believe it?
Fake a smile whenever you're down
Fake a smile whenever you're down
Look who's laughing

You could be the one when life comes calling
You could be the one to stop the tears from falling
You can believe
You can believe
You can be the one everybody will lean on
You can be the light I see when the flames gone
You can be
You can be
You can be

Look who's laughing now
Look who's laughing now

Fake a smile whenever you're down
Fake a smile whenever you're down
Look who's laughing now
Gotta make the world believe it?
Fake a smile whenever you're down
Fake a smile whenever you're down
Look who's laughing

Look who's laughing now
Look who's laughing now
Fake a smile whenever you're down
Fake a smile whenever you're down
Look who's laughing now
Gotta make the world believe it?
Fake a smile whenever you're down
Fake a smile whenever you're down
Look who's laughing
Look who's laughing now
Look who's laughing
Look who's laughing, yeah!
Look who's laughing
Look who's laughing now
