

Broken Design

Amen

It's the money disguised
In the blink of their eyes
Blurring the minds of the fallen
Teach in the crime teachin' the blind
These are the cunts on a street named desire

Locked design and no way out
Locked design and no way out
Why do i fele this way?
I feel this way every day

Forcing and taunting this lifer is hauling
Constant demise of the fallen
Broken inside broken inside
These are the cunts on a street named desire

Lock design and no way out
Locked design and no way out
Why do i feel this way?
I feel this way every day

I wanna live i wanna live to get some
Don't want live, i don't wanna live now
You said your life is gonna get bad some
You never know what life to live
Broken design
Broken now
Who's broken now?
