Right on down the line
I'm working all the time
I got the 9 to 5
Blues back baby on genocide

Got no time
For conversation
Planet lies
In hesitation
Days have
Gone by
My days have all
Faded away

I got no time to stand in line
One decision and to stick & ride
Run the crime run the crime
On time yeah

In my house I live alone In my world I live alone Days have Gone by My days have All faded away I could have been I had a chance I'm looking back At my past It's too late For me now Hey freak Take back Turn it down
