

In Your Suit

Amen

I go to work I pay the bills
I suck your cock and I don't care no more
They call it work I lick your ass
Out my way, it's gonna stop

Cause I'm just a lie in my eyes
I just sit lick and compromise
It's just a job drilled into dead
They just prop me up until the end

Because the vaccine is the plague in here
Slave sleep

I want to see you raped decapitate
The sheep will always sleep until retired
I want to see you raped decapitate
In your silent fate if hidden agenda

Cause I just lie into this bed
I stare at these 4 walls and I am dead
In mummified with "gun of fear"
And you know I don't know how to steal

Cause the scientist is the Satanist
Slave sleep

I want to see you raped decapitate
The sheep will always sleep until retired
I want to see you raped in your silent fate
With your silent rape of hidden agenda

In your suit
You could never be alone in here
You could never get a lion in here
You could never get along in here
You could never
Your could never

Repay
