

# Monkey

Amen

Black sheep cum rising  
All together we're gonna get an ending  
Fly heap reap season  
Wrapped arms embracing no reason

It was the right time of the law  
On the wrong side of the track  
It wasn't what? the laughter  
Has it got to you sin

Like the time before mining  
On the sores of 1964  
It was the right time of the law  
On the wrong side of the track  
You never were my friend  
It's like a curse and you know  
When the children grow up  
They will never have to sow  
You teach what is taught  
But the lessons that you learn  
Tear you apart

When the money grows  
You too will shine  
When the fortune grows  
Who's gonna rise

Do you know the name?  
When you're on the fame?  
Do you know the name?  
When your names in lights  
Black sheep cum rising  
All together we're gonna get an ending  
Black sheep what do you know?  
What do you?

Swinging around  
Like a monkey in a fucking zoo  
You see that money  
Grow money's gonna bury you  
You're on the rise again you're only after  
The run is after you it's all to sin

Do you know the name  
When you're on fame  
What do you know  
What do you know  
What do you  
What do you  
Why do you  
Why do you

Swinging around  
Like a monkey in a fucking zoo  
You see that money grow  
Money's gonna fuck you son
