

Resignation / Naked and Violent

Amen

Burn!

I can't stand this face and everything you fed
Forced me the enemy
And i take the things i know i shouldn't have
Turned me into the enemy

Station station - remote control
Frustration station - that sold his soul

"cause i sold myself to today" [???

It's a solitary, solitary
New war station, watch it burn the nation

I destroy myself cause i can't free
Free the world of the enemy
The pigs they have and the gods they feed
Feed the lives of the enemy

Station station - frustration station

"it's the violence in the silence"

It's a solitary, solitary
New war station, watch it burn the nation

Station station - resignation

Leave the lights on, leave the stains
Through the walls of this decay
Sedate the innocent
Fall from these loaded wings
Circumsized + sterilized
Circumsized + paralyzed
Free the innocent
Free the mother lies in
Milkcarton house hi-rise
Bloody little lamb of fathers eye
Bad people, bad world
The bad pusher in a bad design!
The bad pusher in a bad design!
The bad pusher in a bad design!
Circumsized + sterilized
Circumsized now paralyzed
Circumsized + sterilized
Desensitized insentient eyes
Free the innocent (i break this skin)
Free the mother lies (to let it in)
Free the innocent (i break this skin)
Free the fuckin lives of... (to let it in)
Leave the light on, leave the stains
Leave the light on, free the stained
Naked + violent!
The end of america!
Naked + violent!
The end of america!
