

## Take My Head

Amen

Take my head, rip it open  
Take the sickness, buried it too  
Take my head, rip it open  
Take the scissors, sliced to fill

Did you wanna know how the humans-being  
Tied the lies that you believed  
Did you know the human need  
Is bigger than the received  
Give-for-get  
You can take mine  
You can take my fucking head  
And bury it in the backyard  
Take my head, take my head  
Take my head, rip it open  
Take the stitches, licensed to you  
Take my head, rip it open  
Take the harness, built for you

Dig your therapist a grave  
Big enough for both of you

Get-for-give? Now.  
You can take mine

Someone tell me how to live  
Someone tell me how you live  
Someone tell me how to live  
Someone tell me how you live in here

You can take mine  
You can take my fucking head
