

## The Price of Reality

Amen

Let them inject you, inject you freely  
The sores of truth reprised  
Truth mended with the razors - deny  
I stand accused at the end of our lives

And did they want to find you?  
And did they bury your life?  
It's just a holiday for you  
Human assembly line

It's just a holiday for you  
In your human assembly line  
Another holiday for you  
Abortion candy machine  
What is the price of reality?

Let them take you into tomorrow  
Tomorrow never arrives  
The proof is in our abscessed sex lives  
Abandoned in static erratic fines  
Erratic we embrace our demise

And did they want to buy you?  
In your assembly line  
It's just a holiday for you  
In your human assembly line  
Another holiday for you  
Abortion candy machine  
What is the price of reality?

Sign the welfare checks in your sickness  
With your children's blood splatters on the  
Back of revolt! Revolt!  
Abortion holiday revolt  
Price of reality revolt  
Price of reality revolt revolt
