

All My Life

America

All my life, without a doubt I give you
All my life, now and forever till the
Day I die, you and I will share

All the things this changing world can offer
So I sing, I'd be happy just to
Stay this way, spend each day, with you

There was a time, that I just thought
That I would lose my mind
You came along and then the sun did shine
We started on our way
I do recall that every moment spent
Was wasted time but then I chose to lay it on the line

I put the past away
I put the past away
I put the past away

All my life, I will carry you through
All my life, between each hour of the passing days
I will stay with you

There was a time, that I just thought
That I would lose my mind
You came along and then the sun did shine
We started on our way
I do recall that every moment spent
Was wasted time then I chose to lay it on the line

I want this all my life
I want this all my life
I want this all my life
I want this all my life
I want this all my life
I wanted this all my life
