

Hollywood

America

Orange and yellow and purple and green
The lights of the city at night set the scene
Stumble through the bars of forget-me-not lane
Sparkle through the glitter but don't show the pain

In Hollywood
Underneath a golden palm tree
Hollywood
Come to the party the drinks are on me
For free

Heartbeats echo through a cavern of love
Come to the tavern I'll meet you up above
Soaring through the heavens, what a fabulous ride
But everybody's heading for the same place to hide

In Hollywood
Underneath a golden palm tree
Hollywood
Come to the party the drinks are on me
For free
The drink's on me
For free
The drink's on me
For free
The drink's on me
The drink's on me
The drink's on me
The drink's on me
