

I Do Believe in You

America

They tried to catch us dancin' on the line
They say we took it way too far this time
They gave us no breaks here
But we made our own I swear

I do, I do believe in you
After all that we've been through
I do, I do believe in you
And everything that we do

We used to run with the dangerous crowd
Where the flame was hot and burnin' out
We knew we'd have to give
It hit us where we lived

I do, I do believe in you (I do believe in you)
After all that we've been through together
You took away my darkest nights (nights)
No one else could see the light

Runnin' blind day after day
Some things never wanna change, oh, oh
We knew we'd have to give
It hit us where we lived

I do, I do believe in you (I do believe in you)
After all that we've been through
You took away my darkest nights (nights)
No one else could see the light

I do, I do believe in you (I do believe in you)
After all that we've been through
You took away my darkest nights (nights)
No one else could see the light ...
